

ESD CODE COMPLIANCE

City codes protect the health, safety, and quality of life of El Pasoans. ESD's Code Compliance Division has a team of officers that look into all types of violations and complaints. When a violation is reported, individuals and property owners are put on notice to comply.

Code Process

What should I do if I have been put on notice by the Code Compliance Division?

- Correct the violation by the time allotted on the notice
- If you correct the problem by the compliance date, your case will be automatically closed
- If your property is not in compliance at the time of re-inspection, with certain violations the City may request a court order which would give ESD permission to access the property and correct the violation.
- If the City cleans up the property, the costs for the cleanup will be passed on to the property owner

The Mission of the ESD is to provide Code Enforcement, Environmental Health and Integrated Solid Waste Management Services to the Greater El Paso Community so they can enjoy a Healthy, Clean, Safe and Beautiful Environment.

ESD COMMON CODE VIOLATIONS

YARD MAINTENANCE

Grass, weeds, or uncultivated plants should not be overgrown. Remember, maintenance of vegetation in parkways and alleys is the adjacent property owner's responsibility.

NON-RECYCLABLES IN BLUE BIN

Placing non-recyclable materials in a ESD blue recycling bin is a violation. Only clean plastic, cardboard, paper, aluminum, and tin may be placed in a blue bin. All other material like food, styrofoam, glass, pizza boxes, yard waste (*bagged*), napkins, and paper towels go in the gray bin.

PROHIBITED SALES

You're not allowed to sell merchandise (cars, novelties, other goods) on vacant lots or a public right-of-ways like streets or sidewalks. Vehicle sales in parking lots are also not allowed.

JUNKED VEHICLES

An uncovered junked vehicle or junk vehicle parts cannot be stored in a residential area where it is visible from the street.

STAGNANT WATER

Stagnant water can pose serious health risks for residents. Be sure to remove standing water from your property to help avoid mosquito growth; these bugs are known to transmit the West Nile Virus.

ILLEGAL DUMPING

It's against the law to dispose of solid or hazardous waste (garbage, construction materials, used tires) in vacant lots and other non-permitted areas.

SIDEWALK OBSTRUCTIONS

Keep tree branches, foliage, hedges, and shrubs trimmed, so there is at least an 8 ft. clearance between the overhang and the sidewalk floor.
